Have fun guys it applies to everything you want to know when doing some work with your car · It looks like I can get a job ending with the bushing I ordered from SFR. The investment greatly appreciated the bud. · I have all 3 on 08 tiburon engines, cars and electronics. cant download it, but I can photocopy it and you send parts of the book that you need! · + rep'd. I've been hoping it will pop up at some point! Muchas Gracias! · when I click on the link, it says the link seems to be broken? help noob here · I think you have to wait iwb to come back to that because I just uploaded it to him and he takes care of it after altho I still have a zip file so you can add me to the target or msn if you want · First of all, it is a great resource. But I wonder if it's legal to post this. I paid like \$150 for these from Hyundai that kills me now that you've posted it. · The gadget spec URL cannot be found in Cover: Hyundai Tiburon 1997-1998-1999-2000-2001 (1.8L & 2.0L) year special (5 manuals). You buy hyundai factory service workshop manual. This is the same manual used by your local dealer technician for vehicle repair/maintenance. This guide covers every service and repair imaginable, ranging from oil changes to restore transmission. General Information Engine Mechanical System Electrical System Emission Control Systems Fuel System Fuel System Manual Transaxle System Automatic Transaxle System Drive Shaft and Axle Suspension System Steering System Steering System Restraint System (Interior and Exterior) Body Electrical System Heating, Ventilation, Air ConditioningBought uses 01 with 8k miles. I find it this car (4.9 miles of dirt road a day, curvy roads, very fast, hit deer at 65 mph, on ditches, over curbs), and it's taken off tremendously. There are 125k miles now. There have been very few repairs. Other than brakes, oil changes and tire rotation/replacement, I have only changed the spark plugs and wires twice, coil once, radiator once, belt once, battery once, wheel bearing once. This car is very reliable, it never left me stranded anywhere, and the mechanics seem to be almost indestructible. I couldn't be happier with my car. Even though I've driven the hell out of this car, it still goes great and looks nice inside and out! The overall appearance of the car is very sporty inside and out, very reliable, very few problems (in 8.5 years I have spent about \$1000 repairs). Drives great in any time position. I still get 27+ MPG for every tank. I even built a trailer hook, bolted it to the trunk and moved across The radio developed a short one that makes it off for a moment and back when I hit bumps. I talked to other Tiburon owners who have the same issue. Several more and the radio beam has gone out. A clear coat chipped at the top of spoiler 04, but the rest is fine.
